Is Your Child Suffering From Emotional or Developmental Difficulties?

Learn how you can help!

Everyone has the potential to be a Biomagnetic Healer. Learn how you can bring your own inner healing powers to blossom!

“Every human exhibits it, only slightly differently due to his or her individuality…”

J.W.V Goethe

The following review is from a father who after 17 years searching for help for his autistic children learned to apply the Biomagnetic Healing therapy himself.

“Of note is the marked progress in our children after we treat them everyday. Their dysfunction is gradually alleviated and they are in the process of becoming able to look at the world from a new point of view and on the way to taking life into their own hands actively someday.”

(Steve S, Jakarta, Indonesia)

A blockage in the flow of energy is caused by a disturbance in the way the layers of our physical & inner being or “bodies” interact with each other. Shock causes the spiritual body to withdraw as the magnetic connection between the spiritual body and the physical body stops functioning correctly.

This can, in extreme cases, lead to a complete physical dissociation where the child sometimes perceives him or her self as separate to their own body - often characteristic in children with autism and also those with eating disorders.

Biomagnetic healing is also beneficial to children who have not been through trauma. The day-to-day stress of living, growing and coping with change can be supported with this therapy to give your child or teenager the best opportunity for healthy, happy development.

Conventional western medicine can’t always provide the answers. The public health system is bursting at the seams and the cost of alternative therapies can put a stress on the family budget. Biomagnetic Healing is inexpensive and easy to learn, enabling you to support your family with many health concerns.
What is Biomagnetic Healing?

Biomagnetic Healing is an ancient healing method that can easily be learnt by anyone. Parents and carers are able to use this method specifically to help children and teenagers suffering from a spectrum of difficulties that hinder happy, healthy development.

“Magnetic energy is the elementary energy that the entire life of the organism depends on.”

(Werner Heisenberg, Physicist, Nobel Prize winner 1932)

Difficulties can often be caused or worsened by a blockage in the free flow of energy. Biomagnetic healing works by putting in order the magnetic fields of the body, by discharging, cleansing, ordering and charging the body’s energy flow through therapeutic magnetism.

Biomagnetic Healing Has Been Shown to Help:
- Emotional difficulties
- Trauma & stress
- Behavioural difficulties
- Developmental disorders
- Developmental disabilities
- Autism
- Eating disorders
- Overburdening syndromes
- Chronic fatigue

This review is from a father. He had received a call from his daughters school to let him know that she would not be able to attend camp due to her anorexia. He brought her along to biomagnetic healing sessions. During treatment it was revealed that the daughter had experienced shock during her parents divorce and had developed severe anorexia. Three nerve treatments brought back her appetite and health.

In today’s world many children suffer from emotional and behavioural difficulties. Pharmaceutical drugs are often prescribed which can have both long and short term side effects, leaving parents and carers often desperately searching for an alternative method of help.

Biomagnetic Healing is a gentle method of healing via therapeutic magnetism, that you can learn, to help your child today.

How does Biomagnetic Healing work?

All living organisms, including the cells that make up the human body, produce a magnetic field.

Quite often those experiencing difficulties have at some point been subjected to a traumatic shock or long term stress resulting in a hindrance of the free flow of energy. This is achieved through the laying of hands directly or 6-10cm above the body.
